Lilavati Hospital and Research Centre

More than Healthcare, Human Care

NABH Accredited Healthcare Provider

Lilavati Hospital & Research Centre introduces comprehensive Foot and Ankle services.

Foot and Ankle problems are often either neglected or not correctly diagnosed, hence not appropriately treated. Foot and ankle is a complex organ which needs in depth understanding of its mechanics and function to achieve optimum results.

Most foot and ankle pathologies once correctly diagnosed can be easily treated with exercises (physiotherapy), correction of footwear (insoles – orthotic), local injections and very few times surgery.

* Arthroscopic and Minimally Invasive Surgery enables early return to work / sports
