

Pain Management meet at Lilavati Hospital

'Global Update on Pain', a 4-day international meeting on Pain Management, was jointly organized by the Pain Management and Research Foundation-India and Lilavati Hospital. The Pain Management Clinic, run by internationally reputed doctors Dr D K Baheti and Dr Jitendra Jain, has benefitted thousands of chronic pain patients suffering from backache, cancer and neuropathic pain. The meeting was attended by more than 250 doctors from USA, UK, Sweden, Egypt, Jordan, Singapore and India.

One of the highlights of the

program was a Pain Exhibition on various types of pain and solutions for better pain management through posters, videos and interaction with doctors. The exhibition was open to all and drew a large number of visitors from all walks of life. Pain is a common symptom which affects individuals psychologically, decreases productivity, and lowers the quality of life.

At the live demonstration workshop, Interventional Pain Treatment Techniques were shown on live patients suffering from Sciatic (Radicular pain in lower legs) and Facet joint pain (Back Pain).
