Lilavati Hospital launches state-of-the-art cochlear implant programme

Mumbai, Feb 25 (UNI) Lilavati Hospital and Research Centre, one of India's leading multi-speciality medical facilities, on Saturday announced the launch of its advanced surgically implantable hearing device programme for hearing-impaired children.

Hearing impairment is a serious yet significantly neglected condition in India.

According to the World Health Organisation, six in every 1,000 children in India suffer from profound hearing loss, leading to them experiencing a series of disadvantages throughout life.
