

Multiple Scopy

How will the patient be charged if more than one scopy are performed at a time?

If more than one scopy is performed during the same session, i.e. within a single theatre slot, hospital charges will be applied only once for the benefit of the patient, grading of multiple scopy will be determined by the hospital management & will generally be one grade higher than the grades of the respective scopy. Doctor's fees will be applicable for each scopy.

If more than one scopy is performed during the different sessions (i.e. at different slots during the same day or on different days) the charges for each scopy will be levied separately.
